TERMS AND CONDITIONS

Blanket Purchase Agreement

DoD Enterprise Software Agreement (ESA)

Henceforth Programmer's Paradise is added as a teaming partner

In the spirit of the National Performance Review, The Army Contracting Agency – Information Technology, E-Commerce and Commercial Contracting Center (ITEC 4) on behalf of DoD, and Computer Associates International, Inc. (CA) hereby enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Service Administration (GSA) Federal Supply Schedule Contract.

Federal Supply Schedule (FSS) Contract Blanket Purchase Agreements (BPA) reduces contracting and open market costs such as: search for sources, the development of technical documents, solicitations, and the evaluation of bids and offers.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the Government that works better and costs less.

The Enterprise Software Initiative (ESI) is a joint DoD project to develop and implement a DoD enterprise process. This BPA is issued in the spirit of the policy and guidelines provided in the Defense Federal Acquisition Regulation Supplement (DFARS) Section 208.74.

Exhibits to this agreement are:

CLINs

Order Transaction Report

Vendor Status Report

Fee For Service Report

A. TERMS AND CONDITIONS

1. General

a. Pursuant to GSA FSS Contract Number GS-35F-0823M, Computer Associates International, Inc. (CA) agrees to the following terms of a BPA with ITEC4. All orders placed against this BPA are subject to the terms and conditions of the FSS Contract. Remaining stock fund and prepayment associated with BPA No. DAAB15-99-A-0018 will be transferred to this BPA.

b. License Transferability. In the event Government Licensee has a need to transfer the CA software or software licenses, such Government Licensee will notify CA in writing in advance and CA, in good faith, will review the circumstances with the Government Licensee to determine what is required to effect the transfer. Transfers within individual agencies can be made at no

additional charge as long as CA is notified in writing in advance of the particulars of the transfer and use does not exceed the licensed use limitations. For clarification, "within individual agencies" means Army may transfer within Army, Navy may transfer within Navy, etc. Software licenses purchased under this BPA are subject to the licensing provisions and the terms of the above referenced GSA FSS Contract. Any delivery order issued hereunder will serve as proof of purchase.

2. Products Available Under this BPA

CA Enterprise Management and Security Products, Services and Education on the Computer Associates International, Inc. (CA) GSA FSS Contract Number GS-35F-0823M are available under this BPA. CA Clarity Software Products and Maintenance have been added in mod 8.

3. Pricing

The pricing set forth on Exhibit A for each respective CLIN 0001 through 0007 is fixed until the inventory set forth in the BPA Management and Oversight Section; paragraph 9.b. of this BPA is depleted. Once such inventory is depleted, the parties will modify this BPA to incorporate unit prices and rates for this BPA that are based on discounts off of CA's then-current GSA Schedule pricing. Upon award of changes to Computer Associates International, Inc. (CA)'s GSA FSS Contract Number GS-35F-0823M for products and services, the Contracting Officer must be notified in writing. (See paragraph C.2.f) The BPA will be modified by mutual agreement of the parties. An e-mail will be provided by CA to the Contracting Officer with access to the updated GSA Schedule pricing. Modifications to the BPA are not retroactive and will apply to orders placed only after the effective date of such change.

4. Prevailing Terms and Conditions

All orders placed against this BPA are subject to the terms and conditions of the Computer Associates International, Inc. (CA) GSA FSS Contract Number GS-35F-0823M. The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of the BPA and the Computer Associates International, Inc. (CA) GSA FSS Contract Number GS-35F-0823M, precedence will be given to the order, then provisions of this BPA, and then the GSA Schedule.

5. Duration of BPA

This BPA shall be effective from the date of BPA award and is to run concurrent with the GSA schedule contract including renewals. This expiration is contingent upon Computer Associates International, Inc. (CA) maintaining or renewing a GSA FSS Contract. The BPA will be reviewed annually to ensure that it still represents a "best value." Either party may terminate this BPA with thirty (30) days written notice.

6. Ordering Period

The ordering period for all items under this BPA is the same as the duration of the BPA set forth in paragraph 5, above.

7. Obligation of Funds

This BPA does not obligate any funds. The Government is obligated only to the extent of authorized purchases actually made through orders issued under this BPA.

8. Media Replacement, Functionality Replacement and Extended Support.

In the event of loss or damage of media, CA agrees to replace such media at no charge to the Government. If the form, fit, or functionality contained in any licensed products acquired hereunder (“Original Software”) is substantially reduced or if the product is replaced, and/or (the contractor), provides this same or substantially similar functionality as a separate or renamed product, then the DoD is entitled to license such separate or renamed software at comparable use limitations and at no additional licenses or maintenance fees beyond those fees due under the license for the Original Software. However, throughout the term of this agreement, the contractor will provide DoD notice 12 months prior to the discontinuance of support services for a licensed software product.

9. Rights of Survivorship of the Agreement.

This Agreement shall survive unto CA, its Successor, rights and assigns. The software and agreement terms and conditions as covered under this agreement shall survive this agreement notwithstanding the acquisition or merger of CA by or with another entity. Any software name changes, re-packing or merger of similar products that carry forward the same or similar function of the software shall be supported with updates, upgrades and new releases under this agreement at comparable use limitations and at no additional cost beyond those due under the original software license.

10. Data Rights

Relating to professional services order by the Government under CLIN0010, the Government acknowledges and agrees that when CA uses its software computer program(s) to provide services the software computer program is CA's proprietary software and shall be deemed Restricted Computer Software with Restricted Rights in accordance with FAR 52.227-14. All services documentation, ideas, concepts, know-how, methods and techniques related to such CA software computer program developed or conceived by CA shall be deemed Limited Rights Data in accordance with FAR 52.227-14. CA grants the Government a non-exclusive, royalty-free license to use such Limited Rights Data to the extent it is embodied within any deliverable provided to the Government under order issued against this BPA. No license for such computer software is granted hereunder. If the the Government has licensed such software computer

program(s), then the Government's use of the software computer program is restricted to the terms and conditions set forth in the license agreement between CA and the Government.

11. Product Bundles.

The Computer Programs offered in a “Product Bundle” represented by a Contract Line Item Number (CLIN) are defined as a group of Computer Programs specifically named, with defined quantities, and specified Utilization Limitations which are commercially available independent from one another and are not reliant on one another for the full benefits of the Computer Program(s) intended features and functions. DoD shall have the right to discontinue use of an individual product within the Product Bundle, during the life of this BPA, however the Unit Price remains unaffected by such discontinuation action during the Term.

The Contractor is responsible for distributing the ACT fee to all applicable Services in accordance with the instructions herein. BPA MANAGEMENT AND OVERSIGHT

1. General

The Contractor must provide centralized administration in support of all work performed under this BPA. The Computer Associates International, Inc. (CA), Inc. point of contact, Chris Sortzi, will be the single point of contact for administering this BPA, to include order acceptance, order status, reporting (as identified in paragraph 18), and other BPA related issues. The Computer Associates International, Inc. (CA), Inc. point of contact, at a minimum, is required to participate in periodic management reviews (which may require travel to a Government named site). Additional functions would include customer service, periodic program management reviews, invoicing, payment and submission of quarterly reports. The Contractor shall ensure that all sales personnel are aware of the Enterprise Software Initiative Program and enforce the policy that this BPA is the preferred DoD procurement vehicle for the products within.

2. Reporting.

Computer Associates International, Inc. (CA), Inc. shall provide the following reports to APM-ASCP on a quarterly basis:

Order Transactions Report (EXHIBIT B)

Vendor Status Report (EXHIBIT C)

Fee For Service Report (EXHIBIT D)

3. Records.

The Contractor shall maintain archival copies of all orders for the life of the BPA. Copies shall be made available to the Government upon request.

4. Army Information Technology Conference (AITC):

Computer Associates International, Inc. (CA), Inc. will attend the Army Information Technology Conference (AITC) during the existence of this BPA.

5. Marketing:

The Contractor shall dedicate reasonable resources to this effort and work to market and advertise this agreement. Desired actions include: advertising resultant vehicles on the contractor's Internet site and advertising the agreement at relevant trade shows, participation in agency sponsored events and news media geared to Government/DoD IT personnel.

6. Virtual IT Marketplace. ESI and GSA have partnered to create the Virtual IT Marketplace (VITM). The VITM interfaces with GSA Advantage and provides ESI agreement product

information to the DoD customer. The Contractor shall follow GSA procedures for electronic loading of ESI contract information to the VITM and will be responsible to ensure that the VITM data is maintained in a current status.

7. Enterprise Integration Toolkit. The Enterprise Integration Toolkit is a program developed by the Assistant Deputy Under Secretary of Defense (L&MR) Logistics Systems Management (LSM) to assist DoD Program Managers, Contracting Officers and members of the Integrated Project Team (IPT) in the acquisition and implementation of Commercial Off The Shelf (COTS) Business Systems Software.

The Toolkit provides guidance, processes and tools to define program needs and determine how to best meet those needs through an external acquisition via a three-tiered Roadmap to guide the entire life-cycle from problem definition to solution roll-out. It provides a collection of best practice tools adopted from the commercial industry, and includes more than 100 best practice templates, guides, checklists and samples.

Because the Toolkit is not vendor specific and may be applied across a variety of COTS software package implementations, including this BPA, the Contractor shall be reasonably familiar with the Toolkit and include as part of the Marketing effort required above, a description of the Toolkit for their customers, and a link to the Enterprise Toolkit web site at: <http://deskbook.dau.mil/software/gen/home.html>.

More information on this standard can be found at <http://www.itsi.disa.mil>

As applicable to the Computer Associates product family, existing mandated requirements as found in JTA-vol-I.pdf (dated November 2003) are fully supported by Computer Associates software solutions. For recognized, emerging standards, Computer Associates is either actively investigating the development to support such standards or agrees to develop toward such relevant, public standards based on actual adoption within the DoD. In specific cases where Computer Associates solutions are deemed to have no relevance to such standards, no such compliance is implied or should be inferred.

c. Section 508 of the Rehabilitation Act Compliance.

The computer programs provided under this BPA CLIN 001 through 007 meet the applicable accessibility standards at 36 CFR Part 1194.21 as required by FAR Case 1999-607. 508 Conformance Statements for CLINS 001 through 007 shall be provided to DoD. 508 conformance for CLIN 008 items shall be determined on an order-by-order basis as delivery

orders are issued for CLIN 008 computer programs. General information regarding the Section 508 Act can be found at the web site at www.section508.gov.

9. Additional Clauses:

a. SmartBuy. If during the term of this agreement, Computer Associates International, Inc. (CA) enters into contracts with General Services Administration (GSA) for government-wide contracts under GSA's SmartBuy Initiative, that include pricing for the specific products or product configurations licensed by a DoD Agency under the ESI BPA, under similar terms and conditions, that is less than the pricing provided by Computer Associates International, Inc. (CA) under this agreement, Computer Associates International, Inc. (CA) will enter into good faith negotiations to lower its prices for future procurements under this agreement consistent with the similar terms and conditions of the SmartBuy Initiative, or allow the DoD Agency to move to the SmartBuy program for Computer Associates International, Inc. (CA) products at the Government's option.

Licensee is granted the right to install and use the Clarity Licensed Programs in not more than three (3) Environments, of which only one (1) may be a production Environment. An Environment can consist of any or all of the following, provided that all of the servers in the Environment function as one logical Environment: one or more application servers, search servers, report servers, background servers, and/or database servers. Typical examples of Environments include production Environments, development Environments and test Environments. Additional Discounts for CLIN 0013 and CLIN 0014

Clarity Software Transaction Discount Table

Software Transaction Discount		
	Software (only) Value	Discount
A	\$ 1,000	0.0%
B	\$ 750,000	5.0%
C	\$ 1,500,000	10.0%
D	\$ 2,500,000	15.0%
E	\$ 4,000,000	20.0%
F	\$ 7,500,000	25.0%
G	\$ 10,000,000	30.0%

Notes:

1. The Software Transaction Discount will be applied to the total Software ESI Price (with Funding Fee) of licenses purchased under a single Order. It is not cumulative over time.
2. The software Transaction Discount will only apply to the Software portion of an order.
4. In order to reach the Discount Levels specified the minimum Software Value must be achieved for that level.
4. The software Transaction Discount earned on a specific transaction/order will not apply to any previous or future transactions/orders. The Software Transaction Discount is order specific.

Clarity Software Accumulation Discount Table

Software Accumulation Discount		
	Total Amount in Previous Year	Based On Actual Contract Value
A	\$ 1,000	0%
B	\$ 750,000	0%
C	\$ 1,500,000	2%
D	\$ 2,500,000	3%
E	\$ 4,000,000	4%
F	\$ 7,500,000	5%
G	\$ 10,000,000	6%

Notes:

1. A Software Accumulation Discount will be applied to the total Software ESI Price (with Funding Fee) of licenses purchased under a single Order.
2. The Accumulation Discount is based upon the cumulative DoD sales over a one year Accumulation Period as calculated against net discounted software purchases.

3. *The Accumulation Period is based on the previous 12-month period with the initial period commencing upon execution of the Agreement running through March 31, 2007. Each April 1, thereafter, the Accumulation Discount will be reset based upon cumulative sales from the preceding 12-month period.*

Calculating Discounts

Step 1: Calculate purchase price based upon the DoD/ESI Price List.

Step 2: Determine the Transaction Discount, if any.

Step 3: Determine the Accumulation Discount (only applies to software), if any.

Step 4: Add the Transaction Discount and the Accumulation Discount.

Step 5: Multiply the purchase price from Step 1 by 1 minus the discount from Step 4

DoD/ESI List Purchase Price*[1-(Transaction Discount + Accumulation Discount)] = Final Purchase Price
