SUMMARY OF CHANGES

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been modified:

BPA BACKGROUND

In the spirit of the Federal Acquisition Streamlining Act, the Department of Defense (DoD) and Oracle USA, Inc. wish to enter into a Blanket Purchase Agreement ("BPA") aimed at reducing the administrative costs of acquiring Oracle commercial items under the General Service Administration (GSA) Federal Supply Schedule (FSS) Program.

Federal Supply Schedule Contract Blanket Purchase Agreements (BPA) reduces contracting and open market costs such as: search for sources, the development of technical documents, solicitations, and the evaluation of bids and offers.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the Government that works better and costs less.

The Enterprise Software Initiative (ESI) is a joint DoD project to develop and implement a DoD enterprise process. This BPA is issued in the spirit of the policy and guidelines provided in the Defense Federal Acquisition Regulation Supplement (DFARS) Section 208.74.

This BPA has been designated as a DoD ESI and GSA SmartBUY Contract, which is open to all U.S. Executive Agencies (as defined in 48 CFR 2.1), including the DoD and authorized contractors, except as restricted herein (hereinafter referred to as "Agency" or "Agencies"). Oracle acknowledges that the GSA and OMB have indicated their intent to issue regulations that make this BPA a mandatory source of Oracle products for agencies of the federal government. This understanding will be conveyed to all of Oracle's assigned federal license sales personnel, pursuant to Section E.6. of this BPA.

The Army Contracting Agency - Information Technology, E-Commerce, and Commercial Contracting Center (ITEC4) has entered into this and similar BPAs on behalf of the Assistant Project Manager Army Small Computer Program (APM-ASCP) with DLT Solutions, Inc. (DLT) and Mythics, Inc (Mythics) ("Oracle Resellers with ESI BPAs"). These BPAs are issued to provide the Department of Defense (DoD) database software licenses and software maintenance support in support of the Department of Defense's mission. Oracle shall serve as the prime contractor under this BPA and orders shall be issued directly to Oracle pursuant to Oracle's GSA Schedule Contract number GS-35F-0009T ("Oracle's GSA Contract"). In the event that the government issues BPAs to any Oracle reseller they shall be pursuant to the reseller's GSA Schedule Contract with orders issued direct to each reseller.

The Government and Oracle understand and agree that changes will need to be made from time to time to this BPA. The Government and Oracle further agree that they will continue to endeavor to negotiate DOD ESI / SmartBUY Terms & Conditions for Oracle Products. ITEC4 may provide any such changes to the terms and conditions of this BPA to any Oracle reseller awarded an ESI/GSA SmartBUY BPA.

This BPA and all orders hereunder are subject to the Terms and Conditions sections herein.

A. TERMS AND CONDITIONS

1. Products Available Under this BPA.

This BPA includes Professional Consulting Services; Software Products and Software Maintenance listed in Exhibits A-1 through A-3. Prices for the Oracle CLINs under this BPA are net prices.

Items included on the Oracle GSA Contract and not listed specifically in the BPA exhibits may be purchased at rates negotiated by the Ordering Office and Oracle under CLIN 1001 of Exhibit A-4, entitled "Additional Items-GSA Schedule". Items that are not included on the GSA Schedule may be purchased in accordance with FAR 8.402(f) and Section 17 of Oracle's GSA Contract under CLIN 1002 of Exhibit A-4 entitled "Open Market Items". Both CLINs 1001 and 1002 are subject to the terms and conditions of this BPA and Oracle's GSA Contract.

Ordering Officers may negotiate special pricing with Oracle under CLIN 1003, Special Solutions, as set forth in Exhibit A-4, and in accordance with the terms and conditions of the Oracle GSA Contract.

Software licenses purchased under this BPA shall be subject to the terms and conditions of Oracle's GSA Contract, this BPA and the Order. Orders for Software Licenses and First Year Technical Support must be executed on the applicable Oracle Ordering Document.

2. Prevailing Terms and Conditions.

All orders placed against this BPA are subject to the terms and conditions of Oracle's GSA Contract as specified above. The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of the BPA and Oracle's GSA Contract, the provisions of the BPA will take precedence. In the event of an inconsistency between the license terms of Oracle's GSA Schedule and/or this BPA and the Oracle Ordering Document, the terms of the Oracle Ordering Document shall take precedence

3. Obligation of Funds.

This BPA does not obligate any funds. The Government is obligated only to the extent of authorized purchases actually made through orders issued under this BPA.

4. Effective Date and Duration of BPA.

This BPA is effective from the date of award through the effective period of the GSA Contract GS-35F-0009T. Either APM-ASCP or the Contractor with ninety (90) days written notice may terminate the BPA or a portion thereof provided however, that such termination shall not affect the obligations of the Government or Oracle under any then existing delivery order or lease agreement. The then existing delivery order or lease agreement shall continue in full force and effect as though the BPA had not been terminated.

5. Ordering Period.

The ordering period for all items under this BPA is the same as the duration of the BPA set forth in paragraph 4, above.

6. Enterprise Licenses.

Under the Oracle SmartBUY Enterprise Licenses options defined in Exhibit A-3, Agencies under any of the fifteen Executive Departments of the U.S. Federal Government, and Independent Establishments as defined in 5 U.S.C. 104 (1) ("Agency") may procure an Enterprise License which provides for the use of certain programs on an enterprise basis for an Agency's entire population of users, provided the programs are used only in support of the Agency's internal business operations. Specific program license bundles and pricing are shown in Exhibit A-3: "Oracle SmartBUY Enterprise Licenses". An Agency's licensed population will be specifically defined in an ordering document prepared and agreed to by the contractor and the Agency. The salient features of the Oracle SmartBUY Enterprise License include:

- A. Product Coverage. The Enterprise License is available only for specific Oracle core technologies as identified in the above referenced Exhibit A-3.
- B. Licensed Agency Population. The Enterprise License will be available only if an Agency wishes to license its entire population of users. The term "users" is defined to mean all employees and on-site contractors or off-site contractors accessing Agency owned or leased hardware. The programs may only be used for the purpose of supporting the Agency's internal business operations. The population must be specifically defined in the ordering document agreed to by the contractor and the Agency. The licensed Agency population must be identifiable by objective evidence, such as annual budgeting or appropriation documents. This user population specified in the ordering document is hereinafter to referred to as the "Licensed Agency Population."
- C. Annual Verification and True-Up. Each Oracle SmartBUY Enterprise License shall contain an annual true-up provision agreed to by the contractor and the Agency that provides for an annual adjustment of the Licensed Agency Population. Such provision shall provide that on the first annual anniversary of the effective date of the enterprise license ordering document, and every anniversary date thereafter, the Agency shall be required to report to Oracle in writing the then current total number of users comprising the Licensed Agency Population metric (e.g., total employees and on-site and off-site support contractors) substantiated by objective evidence, as specifically defined and set forth in the ordering document. If the report to Oracle identifies an increase in the users comprising the Agency Population compared to the

Licensed Agency Population (as originally established or as adjusted by a previous true-up), the Agency shall be required to place an order to account for the additional usage of the Enterprise License as well as to provide for additional Technical Support associated with the additional usage. This adjustment shall only be required when users comprising the Agency Population:

(a) increase by three percent (3%) or more over the Licensed Agency Population and the Licensed Agency Population is less than 15,001;

(b) increase by two percent (2%) or more over the Licensed Agency Population and the Licensed Agency Population is between 15,001 to 99,999; or

(c) increase by one percent (1%) or more over the Licensed Agency Population and the Licensed Agency Population is greater than 99,999.

If, on the annual anniversary date, there is no change or a decrease in the users comprising the Licensed Agency Population, no additional fees shall be due and the Licensed Agency Population will remain unchanged. An Agency shall not be entitled to a refund, credit or other consideration of any kind in the event of a reduction in the number of users comprising the Licensed Agency Population.

Note: Unless specifically provided otherwise in the ordering document between the contractor and the Agency, all true-up and technical support renewals shall occur between Oracle and the Agency, even if the original ordering document was not directly with Oracle.

Note: If on any anniversary date, the Agency elects not to certify, update the Enterprise License, or provide payment (if appropriate), upon Oracle's prior written notice to the Agency, the Enterprise License shall revert to Oracle's standard license metrics; any such reversion shall be in accordance with Oracle's standard migration policies and license metrics in effect at the time. In no event shall the Agency be entitled to any refund or other consideration, nor shall the Agency be relieved of any obligation to pay for technical support that the Agency may have ordered, should the Agency cause such reversion under this provision. If the Agency is not current on technical support for the Enterprise License at the time this clause is invoked, the Agency shall be required to pay appropriate fees for lapsed support pursuant to Oracle's standard policy in order to purchase technical support for the licenses resulting from this provision. This provision shall not require Oracle to deliver any programs nor entitle Agency to any program updates.

- D. Support Cap: Enterprise Licenses acquired under this BPA will have a 0% support cap for the initial two annual support renewals and a 2% support cap for the third annual support renewal.
- E. Assignment of Enterprise Licenses: In the event an Agency that has purchased an Enterprise License under this BPA ("Licensed Agency") is re-organized or

restructured such that its responsibilities and operations are transferred to another Agency, such Licensed Agency shall have the right to assign affected program licenses to a successor. Such assignment shall only be effective if: (1) the Licensed Agency provides advance written notice to Oracle; (2) the Licensed Agency has continuously maintained Software Update License & Support; and, (3) the Licensed Agency and the successor Agency agree to be bound in writing to appropriate modifications and/or ordering documents as mutually agreed by the parties to effectuate the assignment.

- F. Surge Usage for National Defense. Where appropriate, subject to mutual agreement, DoD and Agencies directly supporting national security efforts may be provided surge usage in the event of a war or national mobilization. The following language may be included in the ordering document, subject to contractor's agreement:

"In the event of a declaration of war or national mobilization, for a period of time no greater than twelve months, there shall be no limit on the number of licenses for the Programs for temporary use by the 'ordering Activity' to support its operations. This temporary use is only for Programs licensed on this Ordering Document."

- G. Migration: Agencies shall migrate programs previously licensed into the Enterprise License pursuant to Oracle's then current migration policies, to the extent the Agency is up to date on technical support. At the time of migration of such program licenses, it will be necessary for the contracting officer to agree to terminate the migrated licenses and to provide the contractor written assurance in the ordering document indicating that the Agency is authorized to enter into the migration option with respect to the terminated licenses. Except for credit provided under Oracle's then current migration policy, Customer shall not be entitled to any refund or other consideration should Customer elect to migrate to the Enterprise License.
- H. Open Market. Oracle does not maintain an Enterprise License metric on its GSA Contract; however, software programs in the bundles in Exhibit A-3, which are being made available under this BPA, are on Oracle's GSA Contract. Any programs not on Oracle's underlying GSA Contract must be identified as open market items at the time of order placement.

7. Pricing.

The base price offered by Oracle under this contract for any software product under a lease or special solution shall not exceed the price of that software product based on the same program/metric/license combination available on this BPA. The terms of the lease shall be at least as good as the rates provided in the applicable GSA Contract.

Oracle agrees that in no case shall the prices charged under this BPA be more than the prices reflected in Oracle's GSA Contract for identical products (as defined by the program/metric/license combination) and first year technical support services. No less than

quarterly, Oracle shall propose to adjust its BPA CLIN prices to reflect price adjustments made during the previous quarterly period under its GSA Contract for the identical products and first year technical support services. These price adjustments will include any economic price increases in the GSA Contract prices.

No less than quarterly, Oracle agrees to provide APM-ASCP with an electronic copy of its U.S. Price List for software products and first year technical support as well as applicable change records.

8. Discount Structure.

All prices in Exhibits A-1 through A-3 are net prices; there are no additional discounts.

9. Voluntary Price Reductions and Special Solutions.

Oracle can voluntarily reduce prices at any time by giving 24-hour advance notice (via FAX or E-mail) to the BPA Contracting Officer and the U.S. Army Small Computer Product Manager. In addition, Oracle may negotiate special discounts for specific orders for their respective CLINs. These special discounts shall be negotiated under CLIN 1003, Special Solutions.

10. Audits.

Unless expressly provided otherwise in an individual order, Licensee shall perform an internal audit annually and will use its best efforts to keep full and accurate accounts that may be used to properly ascertain and verify numbers of licenses in use. The Licensee will furnish Oracle with a signed certification that the programs are being used pursuant to the provisions of the order including but not limited to the license quantities, or Licensee shall permit Oracle to have access to Licensee records and computer systems and the right to audit such systems to insure software use is in accordance with its license terms. All Oracle personnel must have appropriate security clearances to gain access to Licensee site or data, if required.

11. Maintenance.

- A. Annual Technical Support for Programs is provided under Oracle's Technical Support policies, which are in effect on the date Technical Support services are ordered. The current version of the technical support policies may be accessed at <http://oracle.com/contracts>. Oracle's Technical Support policies are subject to change at Oracle's discretion; however, Oracle will maintain a materially equivalent level of services provided for supported programs during the period for which fees for technical support have been paid.
- B. Oracle will provide twelve months notice prior to desupporting any product acquired under this BPA; notice will be provided in the same manner as it is to other customers via Metalink provided customer has continually maintained technical support.
- C. If Oracle reduces or replaces the functionality contained in the licensed products ("Licensed Product"), and provides this functionality as a separate or renamed product ("Product") at no additional cost to customers currently under Oracle technical support for the Licensed Product, then an ordering Activity shall be entitled to the license of such Product which is generally available in production release at no

additional license or maintenance fee, provided that such Ordering Activity is under then current Oracle technical support for that Licensed Product, and subject to the terms and agreements of the applicable license agreement.

12. Reporting and Payment of Fees.

As a result of this BPA, Oracle shall be solely responsible for the following:

1. Reporting:
 - a. Submittal of Consolidated ASCP Deliverable reports, and
 - b. Submittal of applicable GSA reports; and
2. Payment of the GSA Industrial Funding Fee (IFF) and Acquisition, Contracting & Technical (ACT) Fee for Service for all orders awarded to Oracle.

Note:

The Government will require any Oracle reseller awarded an ESI BPAs to be individually responsible for the following:

1. Reporting:
 - a. *Submittal of ASCP Deliverable reports to Army Small Computer Program, copying Oracle, in sufficient time to enable Oracle to meet the required delivery date for the ASCP Deliverable report,*

Additional functions would include customer service, periodic program management reviews, invoicing, payment and submission of monthly and quarterly reports.

- 2. Report of Sales.** Report of sales shall be by submission of the Order Transaction (OT) and Vendor Status (VS) reports submitted to ASCP as a Microsoft Excel Spreadsheet within fifteen (15) days following the completion of the monthly reporting period. The reports shall be submitted in the standard format shown in Exhibit B. Negative reports are required. The Fee For Service (FFS) Report in the standard format shown in Exhibit B and FFS payment shall be submitted by the 30th calendar day after the end of each calendar quarter. The ASCP will provide copies of the FFS Report on a quarterly basis to the Federal Components participating in fee sharing. If the BPA contains services, current FFS paid by Delivery Order and total FFS paid will be included in the report.
- 3. Universal Standard Products and Services Code.** The Universal Standard Products and Services Code (UNSPSC) is a required field of the Order Transaction (OT) report. The UNSPSC code permits software asset management through a standard coding structure. The UNSPSC is a coding system used to classify both products and services for use throughout the global marketplace. The management and development of the UNSPSC Code is coordinated by ECCMA, the Electronic Commerce Code Management Association. The current version consists of more than 16,000 terms and is available free as a download at <http://www.unspsc.org>.

The VITM interfaces with GSA Advantage and provides ESI agreement product information to the DoD customer. The Contractor shall follow GSA procedures for electronic loading of ESI contract information to the VITM and will be responsible to ensure that the VITM data is maintained in a current status. The VITM may be accessed at www.VITM.gov.
- 8. DoD Email-IT Corridor.** As the scope of the DoD Email-IT Corridor becomes finalized, Oracle will work with the Government to participate in this Government electronic ordering program as is mutually agreeable.

9. APM-ASCP Roles and Responsibilities. As the central order administration point for this BPA, APM-ASCP will provide the following value-added roles and responsibilities:

- a. Provide initial check of order for correctness, work with DoD customers to eliminate errors, thus reducing Oracle internal order processing costs;

- c. Pre-Process orders to reduce the administrative burden and cost;
- d. Assist contractor in resolving invoice questions;
- e. Provide marketing support via Army Information Technology conferences, promotion of the BPA at other DoD conferences, and placement of Oracle products on the DoD Electronic Mall web-site.

10. Multicore Processor Hardware. The following shall apply with respect to new acquisition of programs available for licenses on a processor basis hereunder: ESI acknowledges that Oracle’s then-current commercial policies with respect to processor licenses for multicore processor hardware shall apply unless different terms and conditions are negotiated within a specific ordering document.

Any requirements regarding Section 508 for services must be expressly agreed to by the Contractor and the ordering activity in the order.

G. FEE FOR SERVICE.

The Fee for Service (FFS) is 2% and represents the cost of awarding and administering this BPA. The FFS is in addition to the net product fees. Remittance of the FFS shall be made on a calendar quarter basis (i.e., January-March; April-June; July-September; and October-December) and is due thirty (30) days following the completion of the reporting period. Oracle shall only be required to report and pay FFS for those orders processed by Army COPO and forwarded to Oracle by Army COPO during the calendar quarter. Negative reports are required.

The Navy, Army, Air Force, DLA and GSA (for Civilian Agency Customers) are participating in a fee-sharing program. The contractor shall collect the 2% FFS under CLIN 1004 of the BPA. The following are examples of the methodology to be used in the calculation of the FFS:

The FFS shall be distributed in accordance with the following procedures. Fee sharing shall be determined by the End User Agency or Service appearing in Column Z of the monthly Order Transactions Report. This field shall be notated DON, DOA, DOAF, DLA, or GSA as appropriate.

Fee for Service Report

Oracle is required to submit a Fee for Service Report to the Army Small Computer Program by the 30th calendar day after the end of each calendar quarter. This will be a consolidated report combining the Fee for Service reports of all Oracle resellers with ESI BPAs. Each reseller is required to submit a Fee for Service Report to the Army Small Computer Program, copying Oracle, in sufficient time to enable Oracle to submit the consolidated report to the Army Small Computer Program by the 30th calendar day after the end of each calendar quarter. Oracle shall have no responsibility or liability for the accuracy of the resellers' Fee for Service reports. If no payments were received during the reporting period a negative report is required. Reports are non-cumulative, and should represent only the activity for the reporting period. APM-ASCP will report sales to Navy, Air Force, DLA, and GSA SmartBUY Program Management Office (SPMO) upon receipt of contractor Fee for Service Report.

ALL SALES

For DOD orders, the 2% FFS is split equally between the Service whose customer places the order and the Service that manages the ESI software agreement. In other words, any Air Force order against an ESI agreement managed by Army results in 50% of the 2% fee being paid to the Air Force acquisition organization. The Army will retain the entire 2% fee under orders issued for Army activities under the ESI agreements managed by the Army. The vendor is responsible for distributing the FFS to all applicable Services in accordance with the instructions herein.

For orders placed hereunder by Civilian Agency Customers, the 2% FFS is split equally between the Army (ASCP) and the GSA SmartBUY Program Management Office (SPMO).

Note: Any change to the 2% FFS is subject to written approval by the APM, ASCP and the GSA SmartBUY Program Management Office. It is the Government's responsibility to obtain these approvals and provide them to Oracle prior to the execution of an order.
