

CISCO: EOL/EOS Links & Verbiage

Definitions

- ★ **EOL (End of Life):** Refers to the date that software is no longer manufactured or supported. The EOL announcement by the vendor stipulates when the product support will end, or if already ended, a specific product and/or version, how far into the future support for the product will be provided. Typically, this refers to the date where a specific product and/or version is no longer available for purchase.
 - **Note:** CISCO refers to EOL as 'End of Sale' (EOS)
- ★ **EOS (End of Service):** Refers to the date that software is no longer serviced via upgrades, patches, and overall maintenance.
 - **Note:** CISCO refers to EOS as 'Last Day of Support' (LDOS) or End of Security/Vulnerability Support (EOSV)

Product Availability:

<https://gs-pubtools.cisco.com/esaacp/home.htm>

- **Note:** Registration for use of this site is required. Individuals with an Enterprise email account will be able to register. The approval system generally takes 24-48 hours to process a request.

Lifecycle Policy:
